

WHO WE ARE

Whiro Analytics is a specialist Microsoft data and analytics consultancy. We help New Zealand organisations move from slow, manual, fragmented reporting to trusted, governed, and scalable analytics. We're independent — no software reselling, no vendor lock-in. Just practical architecture and delivery expertise.

CORE SERVICES

Reporting Build & Modernisation Sprint

Build a new Power BI reporting solution or modernise an existing painful report. We turn business questions into a reliable, performant, maintainable analytics pipeline with clear measures, clean modelling, and practical documentation.

Power BI

Data modelling

Documentation

Power BI Health Check

Review of your Power BI environment to identify performance issues, governance gaps, and quick wins. Outcome: findings report and actionable roadmap.

Performance

Governance

Roadmap

Fabric Readiness Assessment

Strategic assessment of whether, when, and how to adopt Microsoft Fabric. Outcome: readiness report, target architecture, and implementation roadmap.

Microsoft Fabric

Architecture

Adoption plan

Fractional Data Architect

Senior data leadership without a full-time hire. Architecture guidance, governance, delivery oversight, and hands-on support as needed.

Data strategy

Governance

Leadership

Pricing available on request — scope and pricing depend on your environment, complexity, and urgency.

OUR APPROACH

01

Assess

Understand your current state honestly

02

Plan

Build a practical, phased roadmap

03

Deliver

Hands-on modernisation, clean docs

04

Support

Ongoing advisory or fractional engagement

WHY WHIRO ANALYTICS

- ▶ Deep Microsoft data platform expertise — Fabric, Power BI, Azure, SQL
- ▶ Independent advice — no vendor pressure, no licence quotas
- ▶ Practical outputs, not long theoretical reports
- ▶ Experience across New Zealand enterprise environments
- ▶ Works alongside internal teams — we don't replace, we strengthen

REPRESENTATIVE EXPERIENCE

Data platforms, reporting, and analytics strategy delivered across NZ public and private sector organisations — from hands-on build sprints to strategic advisory.
